Employee Benefits Frequently Asked Questions

VISION

1. **Is our Vision vendor changing?**
   - **A** We will continue our partnership with **EyeMed** as our Vision administrator; however, OBE will have a new group number. The vision network remains the same, so if your current provider is in the **Access** network, there should be no disruption.

2. **Are my Vision benefits changing?**
   - **A** No, the OBE Vision plan mirrors the benefits of the CRH plan. For a benefit summary of the new OBE Vision plan, click here.

3. **I currently have a Vision ID card. Will I be able to utilize the same ID card after May 1?**
   - **A** Your current Vision ID card will not be valid effective May 1, 2022. Although you do not need a Vision ID card to use providers in the EyeMed network, you will be able to obtain one after May 1 by going to member.eyemedvisioncare.com and creating a **new** member account. If you currently have an account through CRH, you will not be able to use that account after May 1.
