Solar Eclipse™ Systems

The Solar Eclipse™ Sunshade Series does more than merely provide shade. This advanced system reduces energy consumption while providing occupants with comfortable interior environments. Design options include outriggers and brackets in an assortment of sizes and styles and louvers that can be radius, diamond or airfoil in shape to suit a building’s architectural requirements. With fascia profiles that include rounded, square or airfoil, Solar Eclipse™ is a highly flexible system that can be tailored to the individual needs of the customer. Mix and match these sunshade elements to create signature designs that provide a customized appearance.

Mounting Options

- Radius
- Circular
- Airfoil (Large)
- Rectangular
- Airfoil (Small)
