

Protection.
Artfully
engineered.

Introducing SecureOne™ *Shield*

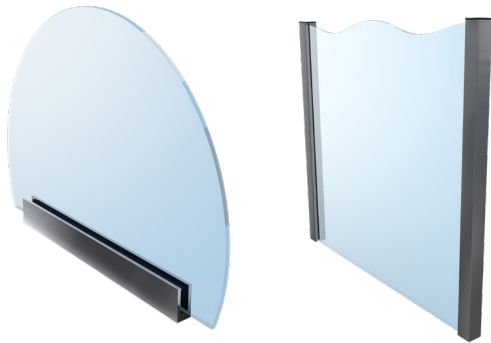

Durable, protective, beautiful. Our glass shields and partitions don't just safeguard, they enhance. Custom designs seamlessly integrate into any interior space – providing an extra layer of protection against airborne aerosols while minimizing scratching and clouding over time. And short lead times ensure you can adapt to the new normal quickly and prudently. SecureOne™ – Intelligence meets elegance.

SecureOne.™ Get back to business. In style.

We customize glass shielding barriers to help manufacturers, restaurants, pharmacies, offices, schools and universities mitigate COVID-19 exposure as recommended by the CDC, WHO and OSHA.

You dream it. We design it.

Our engineers are ready to bring your ideas to life with creative glass tints, digital print designs, hardware, and framing in virtually limitless shapes and sizes. We believe our safeguards should be as unique as the spaces in which they live.

PROTECT

Provides a physical barrier when human distancing is not financially or operationally feasible.

MINIMIZE

Reduces exposure to airborne aerosols without being impersonal.

OPTIMIZE

Improves space utilization with elegant, seamless integration into existing surroundings.

The craftsmanship of CRL hardware.

No matter the space, we collaborate with architects, interior designers and glazing contractors to combine our endless glass fabrication options with numerous CRL hardware styles and finishes. Our engineers understand how the glass and hardware work together for optimal aesthetics, performance and product safety.

Side by side, SecureOne™ is a step above.

SecureOne™ Shield

- Long-term resilience
- Scratch-resistant for lasting beauty
- Beautifully polished, finished edges
- Nonporous and easy to clean
- Timeless aesthetics that enhance any space
- Greater value over time than polycarbonate or acrylic

Polycarbonate/Acrylic

- Less sturdy and lightweight
- Softer and prone to scratching
- Lacks elegant, polished edge of glass
- May suffer damage with common cleaning
- Often clouds and loses clarity
- More frequent replacement over time

Beautifully convenient.

Custom solutions with short lead times mean you can update your space quickly. Crafted in the USA and powered by our network of locations across North America, we're within 500 miles of every major metropolitan area for rapid deployment.
